1. Applicants' response filed on April 18, 2005 has been fully considered and entered.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 6-13 to an invention non-elected with traverse in the reply filed on December 2, 2004. Applicant is request to cancel the noted claims or take other appropriate action (37 CFR 1.144).

Allowable Subject Matter

The prior art of record fails to disclose or reasonably suggest an apparatus and a method of manufacturing an optical transceiver comprising the steps of mounting an optical head to photograph the assembling object in the fitting hole of the optical socket and to obtain an image of the assembling object exposed to the fitting hole and reference position information in a photographed image display screen; detecting a difference between the image of the assembling object and the reference position information; and reducing the difference by moving the optical socket and the

assembling object relative to each other based on the difference in combination with the other limitations of claims 1 and 14.

Claims 2-5 depend from claim 1.

Claims 15-20 depend from claim 14.
